## Key

We endeavour to include as many product codes as possible in each edition. In some cases, particularly where colours are involved, it means a code extension will be quoted elsewhere. For example: Aquacryl Acrylic 2 litre bottle in Black would be code **AC2BLK**.

### Aquacryl

This senior student acrylic can be used straight from the bottle or be thinned with water. Aquacryl can be combined with acrylic mediums to produce a variety of acrylic techniques. Flexible when dry. Easy clean up with soap and water before the paint dries. Non-Toxic.

Welcome to the 2010 Educational Colours Catalogue. We encourage you to look carefully as it has over 100 new products once again!

This last year has been a challenging time for all businesses and Educational Colours was no exception. However our continuous focus on product development has stood us well. We were pleased with the overall reception on new products, packaging developments and catalogue revisions.

Our objectives remain consistent, to inspire and encourage creativity and learning in tomorrow's generation both in the classroom and at home.

Educational Colours has both moral and commercial aspirations to continue to play its part in improving the world we live in.

It is appropriate for you the customer to know where we stand to date.

The company is a signatory to the International Council of Toy Industries – **Care Process**.

This represents what is currently the most advanced effort by an industry to develop a transparent, independent system that will assure its customers and consumers that its products are manufactured in safe and healthy work environments. that is not 'sweat shop' conditions.

The Company continues its carbon neutral endeavours through the NGO Greenfleet ([www.greenfleet.com.au](http://www.greenfleet.com.au)) whereby all carbon generated by:

- Company cars
- Power used both in our factory and offices
- Air travel taken by staff both domestically and internationally is offset under the guiding management and independent calculations of Greenfleet.

Other areas we have already addressed:

- All Company shipping packaging is from 100% recycled board.
- Australian manufactured products are packed in 95% recycled board.
- Paint bottles are PET recyclable. Better for the environment and look great!
- Raw materials and finished goods from suppliers packaging, that is not re-used, is recycled.

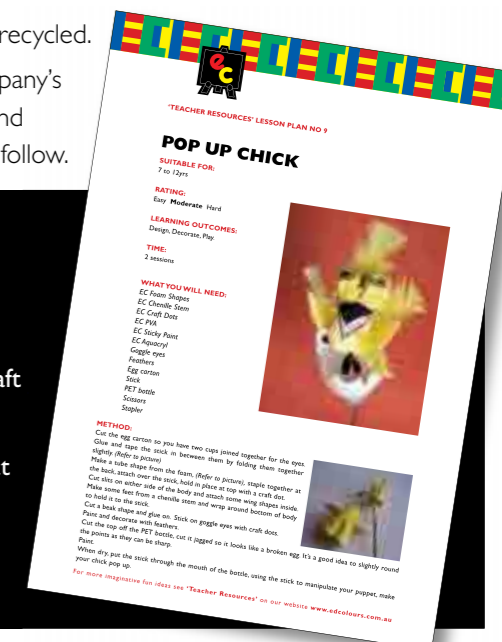

In summary, many of the above measures will be mandatory in the future. The Company's business practices are under constant review in an effort to be an environmentally and socially responsible corporate citizen. It continues to be our aim to lead rather than follow.

## Free lesson plans on line

Free teaching lesson plans are available to you from our website – [www.edcolours.com.au](http://www.edcolours.com.au)

These free tips give teachers easy to follow, yet innovative outlines for art and craft lessons using Educational Colours products.

Everything teachers need to know is outlined in the lesson planner including; what they need, the method, hints and tips, and the value of the specific activity for the children. Developed for pre-school, kinder, primary and junior classes for children from 3 – 12 years, these lesson plans will be updated regularly on our website.
