# Quadrilla®

Quadrilla®

Quadrilla® is a unique blocks, rails builder system with full of accessories allowing the energy of a marble to travel in a make-your-own path.

- A creative wooden combination of blocks and rails held together with pegs making this system very stable and at the same time very flexible for endless options of building.

- The only builder system where the marbles can run even on both directions at the same time.

- A combination between straight and curved rails with a big variety of accessories.

- A high educational value toy stimulating logical thinking, problem solving and interaction between children and parents.

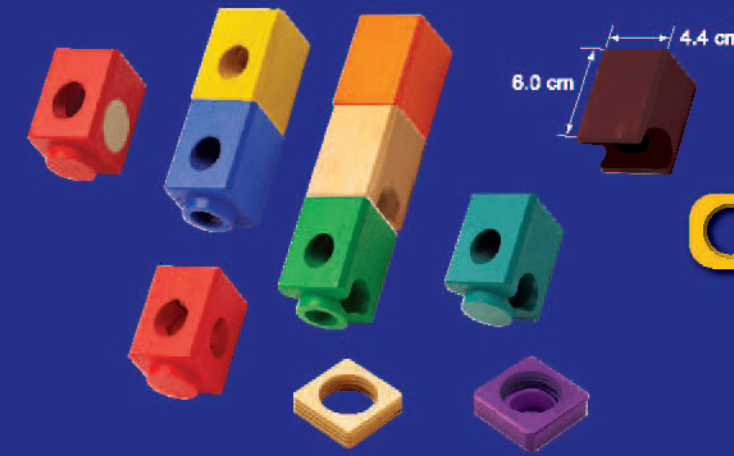

Quadrilla is a natural play experience thanks to the matchless warmth of wood fused with fun, intelligence and creativity.
